

Notice of Agency Rulemaking Proposal

Additional Information for the Web *(if any)*

DETAILED SUMMARY:

The amendment will:

- Raise the State's grant cost share from 70% up to but not to exceed a rate of 90%, reducing the local match from 30% to potentially 10%. Currently clubs are finding it financially impossible to reach the 30% match. Reducing the percentage, still holds the clubs responsible for a portion of the grant funding without strapping them with a high financial burden.
- Add Counties to the eligible government entities to receive the Grant-In-Aid Program. Adding counties, as an eligible government entity, to receive funding through the ATV Municipal Grant-In-Aid Program, allows for regional consolidation for grant administration and makes it possible to more effectively fund trails in unorganized territories.
